

## Imposing **fine** on illegal wastes dumping

Illegal waste dumping is an action you give up your own conscience.

**Illegally dumped wastes** consume precious money of yours on their disposal.

Upon witnessing **illegal dumpers**, please **report actively**.

Category	Amount of fine	monetary incentive
 Dumping cigarette butts and other trashes without certain treatment	KRW 50,000	KRW 15,000
 Dumping without using waste standard plastic bags	KRW 200,000	KRW 50,000
 Illegal combustion of trashes generated from daily lives	KRW 500,000	KRW 100,000

### How to report

- Within 14 days from witnessing, report via phones, letters or internet in the format of 5W 1H
- A subjective evidence of such illegal activity must be presented (i.e.) when reporting a dumping action made from a car, the reporter must include information that can help finding the dumper, such as the plate number, model of the car, color of the car and more.
- The name, residential address, phone number of the reporter must be included
- The report must be residing in Seongnam area at the moment of the witnessing
- The limited amount for one report is KRW 1,500,000 per month (shall be paid within the allowed budget for the managing department)

### Q&A

- Cleaning administration team, Cleaning administration department, City of Seongnam 031 729 3191 to 3194 / recycling team 031 729 3201 to 3205
- Cleaning administration team, Environment sanitary department, Sujeong-gu Office 031 729 5320 to 5324

- Cleaning administration team, City-figures department, Bundang-gu Office 031 729 7320 to 7324

Properly separated wastes shall be returned to us as resources

## Guides on how to handle daily trashes and their treatments

- All wastes must be done **after sunset**
- At the front door of **my own home and my own shop!**
- **At the collecting box** for apartments
- Clean Net for the residents in Pan-gyo (at in front of houses and shops for those to be recycled)
- **Use standard garbage bags** (If not used then it will not be collected)
- **6 collections per week** (not on Saturdays)

Cleaning administration department,  
Seongnam City

# Proper ways to dump out wastes

(if not separated properly, they cannot be collected)

## Is it recyclable?

Yes

- **Papers** : boxes, newspapers, paper packs and others  
※ Every kilogram of paper packs can be exchanged with 1 roll of toilet paper directly (at local community centers 'dong-jumincenter')
- **Vinyl** : Packing materials (for noodles, coffee, snacks), egg covers, Plastic bag and others
- **Plastics** : PET bottles (beers and beverages), cooking oil bottles, buckets, yogurt bottles, cleaner bottles and more
- **Cans and metal scraps** : Cans, spoons and chop sticks, tinned packages, cans for dry milk, pots, fry pans, butane gas canisters, insecticide canisters and others  
※ Those pressured canisters must be punctured to empty their contents before collecting
- **Bottles** : Glass bottles (for Soju, beers, juices and more)  
※ Their caps must be removed
- **Fluorescent lamps and dry cells** : To be disposed at the collection box located in the designated area in apartments or at local community centers 'dong-jumincenter'
- **Clothes and blankets** : Must be either bound with ropes or enveloped to be kept dried before disposal

- ※ Unable to recycle if contaminated with foreign substances
- ※ Must be separated by their types before disposed
- ※ Their contents must be visible (use transparent bags, ropes or nets)
- ※ Collection is free of charge
- ※ What to be put into the standard collection net 'goomulmang' : bottles, cans and plastics (refer the tagged contents attached on the net)

No

## Is it food generated?

Yes

- Use the standard plastic bags for food wastes after squeezing out moistures
- Dispose at the designated box for apartments
- For Pan-gyo apartments, use the standard plastic bags -> Use Clean Net
- Vegetables used for Gimjang (Large scale Kimchi making for winter)
  - Wastes as outer parts and roots -> normal wastes
  - Wastes generated from procedures of seasoning and spice making -> food wastes

### (What not food wastes)

- Tooth picks
- Wastes from extract (coffee beans, herbs used for traditional medicine)
- Husks (of crustaceans, sea-shells, peanuts, walnuts and chestnuts)
- Bones (of fish and meat)
- Shells (of chicken eggs, quail eggs and others from vegetables as onions, garlics and corns)
- Seeds (of peaches, persimmons, apricots)

## Is it nonflammable?

Yes

- Glasses, ceramics, metals, ceramic pots, vases and dishes
- ▶ Use standard bag for nonflammables (available at where other standard bags are sold / no need to report)

No

## (Finally left ones after separations!!) Combustibles

- Wastes contaminated with other substances: nappies, wooden chopsticks, dolls, plastic coated papers (Ads pamphlets and others)
- Leathers: belts, bags and shoes

- ▶ The standard bag for combustibles

## Is it from electrical appliances and/or furniture?

Yes

- **Large appliance wastes** : TVs, refrigerators, air-conditioners, microwaves, air cleaners, water dispensers, computers and others  
※ To be collected free of charge  
▶ How to report: Call at 1599-0903  
<http://edtd.co.kr/> or kakao talk id: weec
- **Small size appliance wastes (less than 1m)** : Electric fans, gas burners, printers, pressure cookers and others  
※ To be collected free of charge
- **Furniture** : Wardrobes, book shelves, doors, chairs, desks, beds, sofas and others  
※ To be collected with charges involved  
▶ How to report: Call at local companies responsible (from 09:00 to 18:00, Mon to Fri) <http://waste.isdc.co.kr/>
